Homework #8. Due: Thurs 11/9

pg. 19, Exercise #1

Remember: "$(h \circ g) \circ f$" means "first f, then g, and then h".

pg. 20, Exercises #2, 4, 5

For these, explicitly draw each map, just like the example for Exercise #2.

Bonus
pg. 20, Exercise #3

For this, you don't have to draw each map (there are many). Just indicate how many.
