## Homework #2 (10pts total)

- 1. What are the four different answers ("causes" or "explanatory factors") Aristotle gives to the question, What makes something what it is?
- 2. What features associated with the Intellect lead Plotinus to posit the One?
- 3. How does Plotinus' Two-Act theory solve the Problem of the One and the Many?
- 4. What is the distinction between pessimistic gnosis and optimistic gnosis?
