

Homework #4: Lakatos, Laudan, Feyerabend; Sociology of Science (Merton) (10pts)

1. What is a key difference between a Lakatosian research program and a paradigm?
2. According to Laudan, what is the difference between accepting a theory and pursuing a theory?
3. What is Feyerabend's "epistemological anarchism"?
4. What are the four norms of science, according to Mertonian sociology of science?
